CIRCULAR

The Microsoft in association with NASSCOM, FutureSkills® is targeting to train free of cost one Million students in one year all over India by delivering Microsoft's AI, machine learning and data science expertise through easy-to-consume modules including demos, hands-on workshop and assignments available on Microsoft AI Classroom series. Such progressive measures currently in place are to ensure that the digital workplace of the future shall have the human resource available who are skilled on emerging technologies like AI, data science, augmented reality, as also are creators and innovators of the future, in which case the students are required to develop their tech skills on these technologies.

Since the programme is open only to Indian students enrolled in Indian Universities, the registration of the programme is commencing from October 19th to 24th October 2020 and the students need to register for three modules. Upon successful completion of the course, the participants shall be able to download the **Certificate of participation**. The details of the programme being available at https://www.microsoft.com/enin/campaign/microsoftAlforstudents/ , the interested students may register their participation in the programme as per the scheduled programme.
